

Dear Treating Provider,

Your patient has requested an absence from work, and disability benefits related to their own illness or injury. In order to accurately assess your patient's functional status and eligibility for disability benefits, the following information is required. In completing this form, we ask that you:

- ☐ Provide answers and best estimates based on your medical knowledge, experience, and assessment of the patient.
- ☐ Provide relevant ICD 10 and CPT code to help expedite your patient's absence case decision.
- ☐ Provide information as specific as possible. Terms such as "unable to determine," or "as needed" may not be sufficient to approve a request for FMLA, and disability leave and paid benefits.
- ☐ Along with the completed form, please provide Office/Progress Notes or other relevant Medical Records

If a covered entity uses language such as the following, any receipt of genetic information in response to the request for medical information will be deemed inadvertent: "The Genetic Information Nondiscrimination Act of 2008 (GINA) prohibits employers and other entities covered by GINA Title II from requesting or requiring genetic information of an individual or family member of the individual, except as specifically allowed by this law. To comply with this law, we are asking that you not provide any genetic information when responding to this request for medical information. 'Genetic information' as defined by GINA, includes an individual's family medical history, the results of an individual's or family member's genetic tests, the fact that an individual or an individual's family member sought or received genetic services, and genetic information of a fetus carried by an individual or an individual's family member or an embryo lawfully held by an individual or family member receiving assistive reproductive services.

Return the completed form and any other medical records by:

Fax #: 1-855-579-1799, or
